

PYLONTECH FORCE H1

Pylontech Force H1 battery is the latest version of High voltage battery storage system provided by Pylontech. The newly designed system provides easy connector to save valuable time for installaters. The stacking system provides flexible configurations from 48V to 384V voltage and 3.5 kWh to 24.86 kWh capacity.

Pylontech Force H1

High voltage battery Pylontech Force H1, for Residential Battery Energy Storage systems, provides a flexible configuration from 48V to 384V and 3.5 kWh to 24.86 kWh of energy storage.

Pylontech Force H1 residential BESS provides:

Safety

Multi-protection from self developed BMS

Optimal Electricity Cost

Long cycle life and superior performance

Compact Size & Easy Installation

Module design help for quick installation

Easy to Scale Up

Be workable to be parallel based on 48V

Compatibility

Compatible with Tier 1 inverter brands

How to save bill from Residential ESS?

1. Self-Consumption Optimization

High energy demand in the morning and evening but solar generation is most sufficient during the Mid-Day. Battery Storage system balance the feeding and demands. Realize your grid independence.

2. Benefits from Peak Shaving

House: Load Shifting

Store the power during low-peak and use the energy at peak -time. Save the money which happens arising from peak rate.

Transmission & Distribution: peak Shaving

Save on the electricity bills by reducing peak demand
